China Ingredient and Foodservice Inbound Trade Mission to Idaho and Oregon ~ September 25-29, 2017

China's food-service sector has reached and maintained a rapid double-digit growth rate in the past 10 years with a total sector revenue of USD \$497 billion in 2015. Chinese markets are seeing a high demand for western style and fusion menus, making imported products the ideal choice. This event is designed for Western U.S. companies interested in the rapidly-growing consumer market of China. Companies will meet for table-top and one-on-one visits with qualified ingredient and foodservice buyers.

Benefits of Participation:

- Connect with pre-qualified ingredient and foodservice buyers representing China that are hand-selected by WUSATA's in-country contractor and are interested in finding suppliers
- Evaluate how your product fits in to the marketplace and assess the competitive landscape by personally engaging with various buyers, importers, and distributors
- Gather current market intelligence, consumer preference, and trend information directly from the source
- Identify new buyers for your product, or personally re-connect with existing clients
